

EXPECT PERFORMANCE AND DURABILITY LIKE NO OTHER

**A Reinke®
Swing Arm
Corner System**

allows you to effectively put more acres into full production.

With options like precision GPS for system

guidance, the Accu-Corner programmable logic controller for optimized application uniformity, and the ESP (Energy Saver Package) for increased efficiency and reduced overall operating hours – a Reinke Swing Arm Corner System is not only a smart investment financially, environmentally it's a wise choice as well.
