**HYPRO EXPRESS BOOM ASSEMBLY**—Still running poly booms? Express Boom provides increased durability w/stainless steel, eliminating warped booms & torqued nozzle bodies. Express end cap removes dead-end space beyond the last nozzle body where chemical build-up occurs & allows for easier boom clean out.

**NC SERIES SPREADERS**, 1.5, 2, 5, 6 & 8-ton units, 304 stainless steel hoppers, variable rate & narrow track units available, wide variety of options customize your spreader to your requirements.

**SPEEDKING BELTVEYOR**, electric, hydraulic, PTO or gas eng., drives available, available in lengths from 20' to 85', capacities up to 6000-bu. per hr., portable & easy to maneuver, gently handles fragile materials to help reduce breaking & cracking.
