THE ULTIMATE IN FLOATING AGITATION

The JT Boat, fully remote controlled, is the first in its class agitation boat. Operation with ease, safety, and output-ability is why you will love your JT Boat!

Designed specifically for agitating manure lagoons, the JT Boat is equipped with the latest in floating agitation technology. It is fully remote controlled to operate as an agitation boat, using a potent Houle super pump to agitate and bring solids off the bottom of lagoon. The JT BOAT floating lagoon agitator does not require a priming system and is designed to minimize fuel consumption during the lagoon agitation operation.
