## It's good to be home after a job well done

There is nothing like the feeling of getting the job done with reliable and efficient equipment.

The GEA Steerable Liquid Manure Spreaders are designed and manufactured to easily operate on all types of terrains — even in extreme conditions. In addition to the power steering system and the hydraulic suspension on each wheel, many other options and tool bars are offered to ease your work in the field. GEA provides state-of-the-art equipment for any size operation.

# THE ULTIMATE IN FLOATING AGITATION

The JT Boat, fully remote controlled, is the first in its class agitation boat. Operation with ease, safety, and output-ability is why you will love your JT Boat!

Designed specifically for agitating manure lagoons, the JT Boat is equipped with the latest in floating agitation technology. It is fully remote controlled to operate as an agitation boat, using a potent GEA Farm Technologies/Houle super pump to agitate and bring solids off the bottom of the lagoon. The JT BOAT floating lagoon agitator does not require a priming system and it is designed to minimize fuel consumption during the lagoon agitation operation.
