# GEA Automated Calf Feeders

Healthy feeding of calves with less labor

Customized, individual feeding is the key to success in modern calf management. With the rugged, programmable DairyFeed J-V600Smart or J-V640Smart automated calf feeding station, you can automate individual calf feeding, and record and monitor every calf from the very day it is born...helping you raise healthier calves with less labor. Spend your valuable time managing your calves, not simply feeding them.
