

Milking and Feeding on Her Schedule

With a GEA Monobox Automated Milking System, combined with the new FRone Automated Feed Pusher, every individual cow's schedule is optimized for more milkings and more feed intake.

Use your time wisely

Be more efficient with the Super Slider Pump and give yourself the freedom to do more!

You can complete your to-do list in record time by investing in one pump that can handle manure pits of various depths. The Super Slider Pump adjusts to different lengths and is easy to maneuver, allowing operators to move quickly from one pit to the next. Its dual-nozzle design and visual indicators provide superior agitation performance and greater convenience for the operator.

Your time is valuable. Use it wisely with the Super Slider Pump — just one pump to get the work done!
