

J&D **Manufacturing**

Barnstormer

J&D Manufacturing's Barnstormer is a dependable leader in air recirculation. The patented easy-open front guard is an exclusive feature that drastically reduces cleaning and maintenance time. The Barnstormer's tapered guard created a high velocity air pattern that allows greater distance between fans, which means less fans in your barn and more money in your pocket.

Patented Open Front Guard

The Barnstormer is the only fan on the market with the hinged open front guard. This patented design helps cut cleaning and maintenance time. Dirt and dust are removed in minutes to get you back to energy-efficient high-output performance.

Features

- Available in 12", 20", 24" and 36"
- Patented open front guard for easy maintenance (U.S. Patent No. 5,348,447)
- Fan ships fully assembled
- Included hot dip galvanized ceiling mount bracket
- Industry leading air velocity
- Quiet operation
- Direct drive motors with no belts or bearings to maintain
- Guards are white powder coated for easy cleaning and corrosion resistance
- Variable speed motors on 12"-24" models (*requires separate variable speed control to adjust fan speed*)
- Totally enclosed, maintenance-free, direct drive high-efficiency motors have completely sealed ball bearings, UL and CUL recognized, and are covered by a Two Year Warranty
- Single phase models have automatic overload protection
- Can be used with our misting/fogging product line
