**TOWER DRYER
 HEAT RECLAIMER**

For many years the GSI and Zimmerman Tower Dryers have been the leader in capacity, quality and efficiency, but we didn't just stop there — introducing GSI's new Tower Dryer Heat Reclaimer.

GSI's patent pending Heat Reclaimer technology is the first of its kind, giving you the ability to reuse the dryer's heat, while minimizing debris build-up. Available for 12', 18', 24' and 30' diameters, the Heat Reclaimer can be easily retrofitted on older GSI or Zimmerman Tower Dryers.

Check with your utility for available grants on adding the reclaimer.

Honeyville

**Leg Support Towers
 Now Available**

We have a full line of Honeyville grain handling and dust collection equipment engineered for ag applications.

**Incline Drag
 Conveyors**

GENTL-FLOW

Industrial Series
 Capacities up to
 20,000 BPH

**Galvanized
 For Long Life and
 Low Maintenance**

Feed build up on corrugated bins harbor bacteria, contaminating expensive feed. Schuld / Bushnell smooth wall bins remain "new bin clean" for years. The more they are used, the cleaner they become, resulting in reduced medication cost and better feed conversion.
